

PERMISSION TO REGISTER THE SOCIAL SECURITY NUMBER OF A PERSON NEEDING A SPECIAL DIET

person in daycare

person at school

Polkka - Pohjois-Karjalan tukipalvelut oy asks you the permission to register your child's diet to the catering service's database under their social security number. The database is accessible only by the daycare centre's/school's catering manager and the manager of the catering unit as well as admin users of the program.

With the social security number, we can assure that a diet is directed to the right person even if there are several people with the same name, also when the child is placed in alternate day care, continuing to school or changing schools. The social security number is not visible on the catering unit's production lists, since it only works as an ID tag. Generally, a first name and diet is marked on food containers for recognition purposes.

For the notification of diet, we ask you to state the social security number in whole, so that any changes are also entered under the right person.

I allow my child	_____
	(first and last name)

	(whole social security number)
to be added to Polkka - Pohjois-Karjalan tukipalvelut oy's catering database.	
At the moment my child is	
	in _____ daycare centre
	(name of daycare)
	_____ school
	(name of school)
The permission is valid throughout the whole time the child is in daycare and school.	

Guardians' signatures	
_____	_____
(date)
